IMP.NOTE: How to start Training / project / contract research / any other services

Once you decide, that you want to study (training / projects / any other services) and wants to confirm after initial talk or email enquiry, with reference to project cost, duration, then send completely filled registration form with fees and necessary documents. Once it is received at our end following details we will discuss with you....

1. **For research project and contract research:** We will send topic with one page write up including title, aims and objective, materials and methods, possible outcome of the thesis, Significance of the proposed research project, some references so that you can study more before your arrival. All research projects are individual basis. No group project.
2. **For training / workshop:** We will plan your schedule as per provided dates or will let you know available dates Once we receive this completely filled form, we will send confirmation by email with details of finalized protocols on individual basis under training program.
3. **Payment and amount:** There are no registration charges. We accept only 30% course fees for registration which is non refundable but transferable for any services for the same registered candidate under training or projects only. Remaining 70% fees needs to pay at the start of the program. In case of installments please provide post dated cheque at the time of admission.
